- MySQL
- Python
- Node.js
- Bootstrap
- MongoDB
- GitHub
- Visual Studio Code

Specialties

- Web Development
- Android Applications
- Desktop Applications

Languages

- Spanish - Native
- English – B1

Profile

I'm a developer that is passionate about computer science and technology. I enjoy learning new skills and improving the ones I already have. Capable to adapt to the new technologies and tendencies. When I'm not programming, I am playing videogames, watching movies or spending time with my friends and family.

Software Projects

All projects available on GitHub: https://github.com/Angel-D-V-Crawford

Portfolio: https://angel-d-v-crawford.github.io/

- **App Ideas**: A web app used to take notes of application ideas. Save details like the project requirements, the technologies to use, and a difficulty indicator for anyone who wants to implement the project idea based on their skills. https://app-ideas-crud.herokuapp.com/
- **Xelsher**: Social network web application where anyone can make small pixelarts and share them with the world. You can make friends, comment, and like all the posts you see; as well as you can use the pixelart maker to quickly create some art. https://xelsher.herokuapp.com/
- **MP3 Player**: Desktop MP3 Player where you can listen to your favorite songs and make a playlist.
- **Pendroid**: Android Application where you can make a drawing and save it as an image.
- **Tic Tac Toe**: Desktop Tic Tac Toe game. Have fun playing with the AI. Just for one player.

Experience

09/2017 – 12/2017   **Mazatlán City Hall**
Technical Support Department

- Software and hardware maintenance and updating.
- Operating systems installing.
- Technical troubleshooting on computer systems.

Education

08/2016 – 07/2021   **Universidad Autónoma de Sinaloa**
Computer Science Faculty Mazatlán

Bachelor's Degree in Information Systems Engineering
Accentuation in Computer Application Development
